Pursuant to the currently adopted edition of the International Building Code, your project must have the proper use group designation. In order to determine the correct use group, you will need to identify the last documented use or business description of the space you intend to occupy. We recommend you request any additional requirement(s) from each department in order for you to occupy the designated space.

Any required prior approvals must be forwarded in writing to the Building Department before your permit and/or certificate can be issued. This form, along with a completed Construction Permit Application, and any required approvals from other departments should be submitted together to the Building Department. Permits and/or Certificates can not be issued without all of the information outlined above.

To be completed by Fire Safety and MUA Representative
